**Subject:** Fw: Resignation from the Finance Committee

To Ilana and all SCMI Members,

I tried to persuade Bernd from resigning right now in the hope that all the safety measures promised by the chairwoman would be installed and prove successful. However, Bernd decided what he decided and I understand his decision only too well.

The happy go lucky attitude of our treasurer and several of the DB are in my opinion misplaced and highly improper in well managed environments.

A well managed organization first has to prove itself to be trustworthy, before any trust can be placed in it by other organizations.

An organization that seems to be unwilling, during several month of incitements, to fully expose it's financial dealings by providing simple documentation, and instead is spreading opinion forming excuse stories, does not, in my opinion, deserve any trust from public funds managers.

I am fully aware that with the withdrawal of Bernd from the financial commission, we lost the last stand against what we consider improper financial procedures, and thus, being the last active person on this commission, and in face of the decision of the board tonight, to entrust our partners with an additional NIS 180.000, I have no options left, but to announce my resignation as well. I hope everybody will be satisfied.

Shalom Pront

**Subject:** Resignation from the Finance Committee

July 4th, 2004.

Ilana shalom,

During the past few weeks I wrote several letters concerning the financial dealings between SCMI and SPI and yesterday we discussed the subject of improper financial behaviour.

During today's meeting I again explained what is wrong. Many of the boardmembers agreed. Much to my astonishment the board approved the continuation of the procedures which have been proven wrong twice.

The conclusion is that my financial background and recommendations are either wrong or don't suit SCMI.

In both cases it is a waste of time for the board and for myself and I therefore resign from my function as Chairman of the Finance Committee of SCMI.

My decision is final.

Bernd Struch.

Angeliem, please send copy to Moshe Harel.
